

SKILLS ACADEMY HOLIDAY CAMP

2. ORGANISATION

Children are then organised into groups and are usually playing with children of a similar age/ability level. They will then start a fun warm-up activity in these groups.

4. LUNCH

After having their packed lunch, the children are encouraged to rest and allow their food to digest. Next is 'Coaches Challenge' which is a little competition between coaches. This is always popular with the children.

1. INTRODUCTION

Once checked in, children can go straight into their skills arrival activities. A register is then called and children are briefed on what to expect during the week and also the safety procedures.

3. SKILLS

Coaches set up skills practices for the children to develop their technical ability. Players are challenged appropriately according to their ability level. The morning ends with Match play!

6. TOURNAMENT

Children will play a tournament where they will have the opportunity to put their skills to the test!

After the tournament, children are safely guided to their parents where they will go home to hopefully have a rest!
